

Aloe Protect™

Hilltop Gardens® 

Potent protection. Oxidative stress is caused when the body's ability to detoxify and repair damage is compromised. Antioxidants play an important role in combating the effects caused by free radicals. Aloe Protect™ is an active botanical formula with Picrorhiza kurroa, a strong antioxidant, paired with Aloe vera and milk thistle, which are natural compounds known for their detoxifying abilities, to help support healthy liver function.*

- ▶ Neutralizes free radicals in the liver*
- ▶ Supports and protects liver health*
- ▶ Promotes detoxification*

STEPHEN'S TIP

Aloe vera has been shown to aid in the normalization of blood sugar, already within the normal range, to support the body's own defenses, and increase the bioavailability of antioxidant supplements. A large number of studies have shown that Aloe can help support normal liver function; it also aids in cardiovascular health by reducing oxidative stress.
