

PRIME-C™

Restore, rebuild, re-vitalize. Cells require raw materials and energy, and typically around 30 years of age the process of cell regeneration, rebuilding, and repairs starts to falter. Prime-C™ supports optimal regeneration to help restore cell systems in the body and brain. Prime-C supports healthy aging and vitality with a group of B vitamins and a nutraceutical blend including Carnosine, Diindolymethane (DIM), N-Acetyl cysteine, Alpha Lipoic Acid and more.

Carnosine is a natural compound that has been studied for support in neutralizing and protecting cells from free radical damage, for its detoxification potential, to reduce the cross linking of proteins, and for support and protection of the cell membrane.

- ▶ Restores cell systems throughout the body and brain
- ▶ Reduces cross linking of proteins

Supplement Facts

Serving Size 2 capsules Servings Per Container 30

Amount Per Serving	% Daily Value
Riboflavin (as riboflavin-5-phosphate) 1.5 mg	88%
