Post-Menopausal Formula™

Why feel good when you can feel great? As hormone levels decrease, women tend to acquire more body fat, making them more susceptible to the ravages of free radicals. This, combined with the lack of estrogen and progesterone, increases her risk of other health problems. Post Menopausal Formula™ is formulated with Black Cohosh, Dong Guai, wild yams, flax seed, and soy isoflavones to help maintain hormonal balance.*

To provide bones and connective tissue with the nutrients specifically beneficial to mature women, Post-Menopausal Formula contains added calcium and vitamin D.

- Maintains healthy hormonal balance*
- Supports healthy bones and joints*

Univera products are the healthy aging products of choice for both myself and my patients. In my experience, they are reliably effective for improving the body's repair systems and decreasing the damage we experience from every day wear and tear. I have never felt better in my life, thanks to these products! My patients often report positive benefits after beginning to use Univera products.
