

Prime C (Canada only)

- Helps restore cell systems throughout the body and brain.*
- Contains bioenergetic nutrients that support cellular energy production: Alpha Lipoic Acid is an essential nutrient that supports the biochemical assembly line within the cells that creates energy.*
- Univera also adds B vitamins (B6, B-12 and Riboflavin) as important co-factors in energy production.*
- Contains L-Carnosine a water soluble antioxidant that promotes chelation of some metals in the body. This ingredient helps to fight glycation of proteins which involves the crosslinking of proteins induced by sugars. This accelerates with age causing loss of flexibility in soft tissues throughout the body. It is also thought that carnosine may help to slow the development of Alzheimer's disease.*
- Cruciferous vegetable extract to help balance hormones.*
- Contains N-acetyl Cysteine that helps to support synthesis of glutathione in the body. This is a powerful antioxidant that helps to protect the liver. NAC also assists in breaking down mucus.*
- Supports immune health*
- Vegetarian friendly.
