

Prime

- Helps restore cell renewal signals throughout the body and brain.*
- Contains bioenergetic nutrients that support cellular energy production: Alpha Lipoic Acid and acetyl-l-carnitine are two essential nutrients that support the biochemical assembly line within the cell that creates energy.*
- Univera also adds B vitamins (B6, B-12 and Riboflavin) as important co-factors in energy production.*
- Critical support for detoxification and immune function.*
- Cruciferous vegetable extract to help balance hormones.*
- Biologically active form of vitamin B-12; essential for optimum performance of your brain and body.*
- Supports repair and regeneration: The primary and most comprehensive repair signal in your body is a hormone called DHEA. It peaks around the late twenties and then it starts to decline. Prime provides DHEA and 7-Keto DHEA to help with this challenge.*
- Contains N-acetyl Cysteine that helps to support synthesis of glutathione in the body. This is a powerful antioxidant that helps to protect the liver. NAC also assists in breaking down mucus.*
- Helps maintain muscle mass and build.*
- Supports immune health.*
- Vegetarian friendly
